Beautiful Autumn days
at Lehigh.

Who says stairs have to be even?

The Drown deck: A great place to
study on a Fall day.

THE SETTING...

The Lehigh campus is not just a place, it's where our memories of college have been shaped. When you look back at Lehigh after you graduate, what about the campus will you remember the most? Will it be the stairs, the size of the mountain, the trees in the fall, or will it be the squirrels, the architecture of the buildings, or the peaceful setting? Whatever it is, it has become a part of you. Who at this school hasn't been freaked out by an angry looking squirrel as you walk by its food stash? And who hasn't been walking home on a cool autumn afternoon and felt refreshed by the scenery? The campus has helped shape our experience too.

THE PEOPLE...

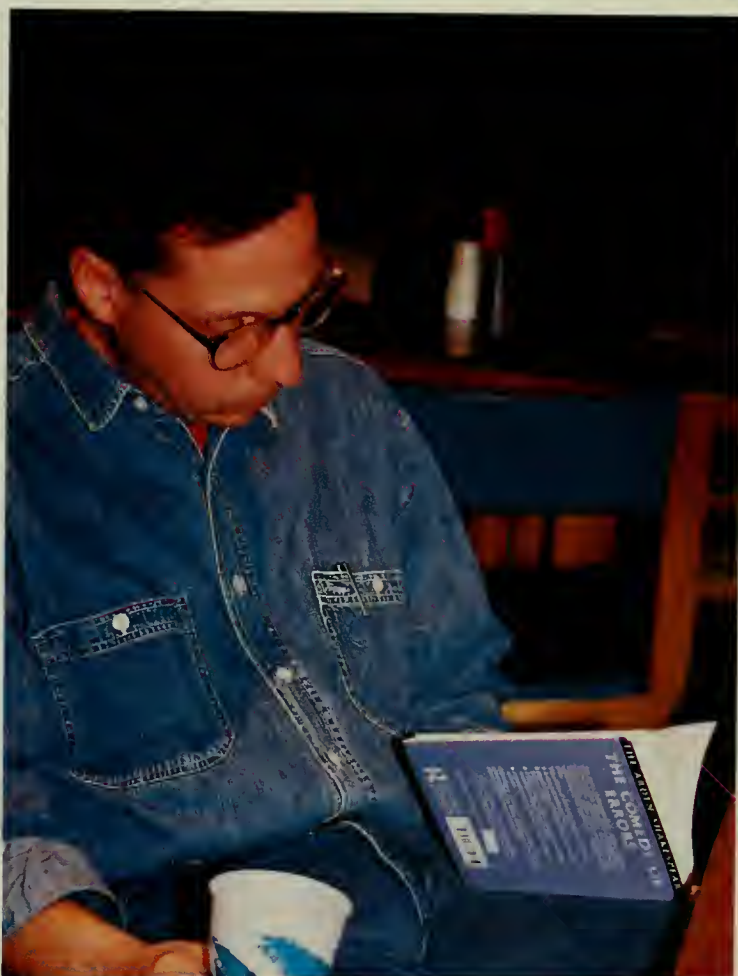

The people we have met at Lehigh have had the biggest influence on our experiences here. Through our interactions, both good and bad, we continue to grow and learn. The people at Lehigh are not only individuals, but part of a larger community. The administrators, the professors, and the students form one community where knowledge and experience come together. Long after we have left this beautiful campus and all of our papers and programs behind, we will still have the two most important things the Lehigh community can ever give us: Friendship and Memories. A community is only as good as the people who make it up.

...AND HOW IT ALL COMES TOGETHER

The hike back up to your dorm, your first trip up to the hill, the twinge of homesickness, meeting with your advisor to decide what courses you should take, that first bad grade, or your favorite professor's funny story about what happened to him or her on the way to class; none of these memories exists alone. Each, whether good or bad, has been a part of our college experience. During our years here at Kenigsh, we have dreamed, learned, loved, hated, laughed, and cried... can we really sum it up in a few words and pictures? I hope so!

JUST WHEN YOU THOUGHT THE SNOW HAD ENDED...

...Back came the snow, then more
snow, and even more snow. Upon
returning to Lehigh after Winter
Break, to see the huge mounds of
snow piled up everywhere, hopes of
snow days grew in our minds! The
days of nice weather in February
teased us into believing that Winter
was over, and soon we would be
wearing shorts and tee shirts again...
But no such luck. Once again, the
snow began to fall, threatening to
ruin our plans for both Pacing and
Spring Breaks. Snow in April...
who would have thought?

LEHIGH'S PAST, PRESENT AND FUTURE

Drastic though they may seem, the changes Lehigh has gone through this year cannot even begin to compare to the changes seen since Pasa Packer founded the University in 1865.

Gone are the days of slide rules and on all male campus, and moving forward to take their places amongst the pages of Lehigh history is the Mountain Hawk, the Loellner Art's Center, and two U.C.'s. However, even though the appearance of the campus may be different today, the tradition of school spirit will forever remain the same.

The Events That
Shaped Our Lives

YEAR IN REVIEW

Every year brings with it highs and lows on the individual, local, national, and international levels. At college, though, there is sometimes a tendency to forget about what happens beyond the borders of campus. College life can be very sheltered. While college is supposed to teach us how to make an impact on the world, it sometimes hides it from us at the same time. During these precious few years we realize that part of the growing that needs to occur is not always easy...Life in the "real world" can be exciting, boring, joyous, and sad all at the same time.

Our fondest
memories...

FEATURES

Not all of college centers around the classroom. Our fondest memories are those times spent with friends and enjoying Lehigh life. Saturday morning tail-gates, weekend parties, and late night Wawa trips are what we take with us into the future. Freshman year we came alone onto this campus, moved into our residence halls and met our roommates for the first time. Through the years, together we shared in the craziness of Lehigh-Lafayette, Greek Week, and fraternity parties. This section is dedicated to capturing some of our fondest college memories, to remember them for years to come.

*S*weltering heat, new faces, worried parents, cars jammed full, microscopic rooms, and a new friend to live with. These images were our first impressions of Lehigh. The warm reception from the Greeks and Gryphons who welcomed us took away some anxiety. Soon after, the many new faces became our best friends and families away from home.

The next few days were filled with a hectic schedule. Hall meetings, orientation groups, get-to-know-you games, and becoming instant friends with hallmates started the year with a bang. (If only classes were as fun!)

The first production by the Theatre Department this spring was "When We Dead Awaken," written by Henrik Ibsen. When Professor Rubek, a famous sculptor and his young wife Maia come home to Norway for the summer, they soon meet a pale stranger and the dead begin to awaken. The stranger is Irene, the model for his most famous work. She accuses Rubek of stealing her soul, leaving her dead and she wants her revenge.

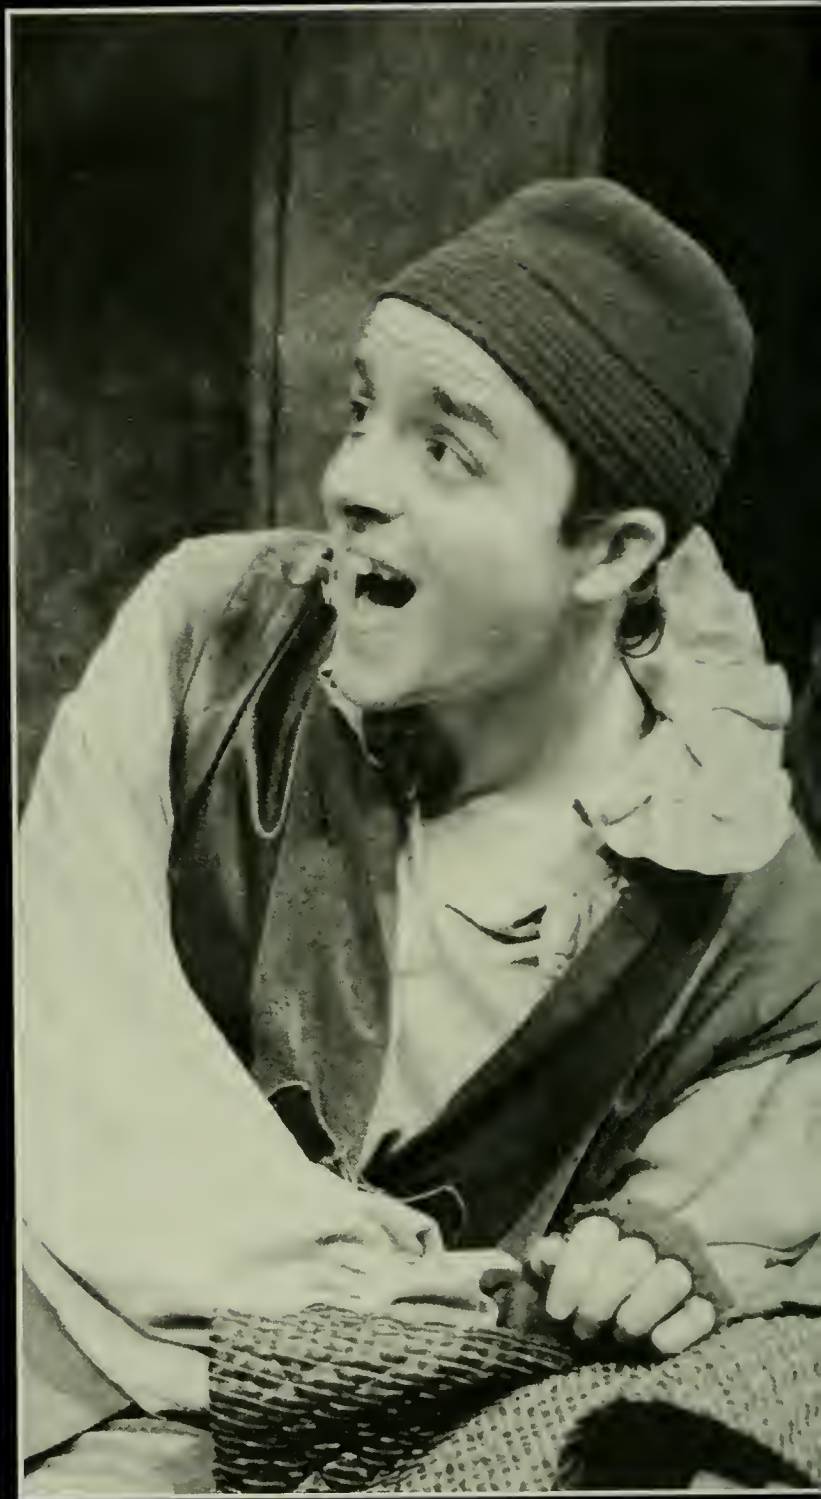

In "Bound and Unbound," the second play this spring, students had the opportunity to reveal their creativity. This production contained 11 sketches, each based on a concept devised by a different member of the theatre production class. Much of this was done impromptu, with the actors in control of the performance.

and "Bound and Unbound"*

During the fall semester, the Lehigh Theatre Department produced two plays. The first was "Jacques Brel is Alive and Well and Living in Paris," a composition of the works of Jacques Brel, a French composer. The audience enjoyed a cafe-style setting, complete with round tables and a non-alcoholic bar.

In December, Richard Brinsley Sheridan's restoration drama, "The Rivals" was featured. The story revolved around an aunt arranging a marriage for her wealthy niece, who only wants to marry for love.

The promise of beer and burgers draws students to tailgates.

Kate Wannemacher, Amy McKeever, and Carrie Zegarski show a friend from another school what Lehigh tailgates are all about!

A hhhh fall... The leaves are turning colors, the air is fresh and cool, and many Lehigh students are spending their Saturday mornings on Goodman campus anticipating the game. Tailgates are a yearly ritual for the Lehigh community. In fact, more students attend the festivities than wake up in time for their Monday morning classes! Students look forward to the barbecued burgers, and good times that the pre-game celebration brings. These are the days we will look back on and remember with a smile.

TAILGATES

A Saturday Tradition...

This year it seemed like spring would never come. The constant snow and near-Artic temperatures in March led many students to seek out a warm place for their spring break. It looked like Cancun was the most popular place to visit this year, as it seemed like the whole school was looking to escape the cold. Other students wanted to join MTV in Panama City, Florida for their vacation. Those who just can't get enough of the cold and the snow headed for places like Vermont or Colorado. Not everyone chose to go away for the break, but those who did had a great time and came back more tan, relaxed, and ready to enjoy the rest of the year!

Kappa Alpha brothers Ted Kosinski, Brian Timmons, and Henry D'Alberto enjoy a preparty at their chapter house before leaving for their formal.

*T*hey come around only once or twice a year to most living groups on campus, but formals are times

that are always remembered. Fraternities and sororities often have them twice a year, and many residence halls hold theirs' in the spring.

Lehigh formals come in all styles. The Winter brings us date parties or semi-formal dances. In the Spring, they are often more fancy occasions, being held at either restaurants or hotels. Fraternity men may sport a tuxedo, and women can be seen in all types of semi-formal attire.

We've all put in endless hours searching for the perfect dress or date to make the evening special. But the presence of good friends and good fun make formal night a time when anything can happen, and usually does!

A Formal Occasion

It's not only the longest running college football rivalry in history, Lehigh-Lafayette is also a week for letting go and having a great time. Throughout the week, students anticipated the game by partaking in Beirut tournaments and morning cocktails. Some organizations even held contests against students from Lafayette. No matter how it was spent, the highlight of the week was on Saturday. The tailgates are the best of the year, as students get psyched for the big game!

The hope for a football championship rode on the Lehigh-Lafayette football game once again. As the game progressed, things did not look good for Lehigh. Finally in the fourth quarter the Engineers made their move and tied it. The game went into overtime and then double overtime in which Brian Klingerman made a remarkable one-handed catch for a touchdown. Lehigh became Patriot League Champions with this remarkable 37-30 win over Lafayette! As the sun set over Goodman Stadium, Lehigh fans went off into the night to celebrate the hard-earned victory.

The big game

This, Lehigh's 131st, year has marked many new additions to the campus. Perhaps the most visible sight is the new Zoellner Arts Center. Although it was not finished this year, when it opens it will provide unimaginable benefits to the Lehigh community. It is even complete with a new parking garage which has already provided much needed spaces. The new food court opened this fall in the University Center with Subversions 2, Stack's Deli, and Burger King to help meet those food cravings. Lehigh's bookstore got a new facelift as well as faster computers to cut down on lines. And our new mascot, the Mountain Hawk has been found all over campus ushering in these new additions!

New Additions

A long line forms to sample new tastes from Stack's Deli in the new food court.

Students enjoy the time saved while buying books using the new cash registers in the bookstore.

The construction moved along at a busy pace as workers built the new art center.

Burger King was one of the new dining choices that came with the food court.

Mountain Hawk memorabilia quickly replaced the engineer in the bookstore and around campus.

The Zoellner Art Center as seen from Rauch looks almost ready to greet new patrons.

We work hard all week, so when the weekend comes around, Lehigh students found a multitude of ways to have fun. On Wednesday and Thursday nights, off-campus parties and Beirut competitions were popular. When the weekend officially hit, there were many more choices for students. Seniors often migrated to The Ho for a good time. Other students frequented fraternity dance parties and cocktails, and spent their nights on the Hill. Off-campus parties were also a hot item for many. If you weren't in the mood for partying, instead you may have been found at a comedian or a band sponsored by University Productions or at a movie in Ulrich. No matter how nights were spent, students often felt they were too short!

Night Life

We Love It!

*C*ollege students have often been criticized for a lack of caring towards the community. But here at Lehigh, we know the meaning of helping out. There are a large number of clubs, Greek houses, and other organizations that take giving seriously. Whether Alpha Phi Omega is building houses for the homeless, the Big Ben foundation is holding a basketball tournament, or a sorority is selling carnations to benefit their philanthropy, students and faculty are always donating their time to worthy causes. Greeks and non-Greeks alike have been an integral part in the strive to prove college students really do care!

A crowd of students watch as their friends dine on hot dogs and blueberry pies during Beta's eating competitions.

Despite cold temperatures, this year's Greek week was still as hot as ever! Opening ceremonies started the week off as students' teeth chattered while watching the banner parade. Sigma Nu dance contest, Beta greekers, Sammy bed races, and Theta Xi airband were some of the old favorites that were back for another year. There were also some new additions to add more excitement to the week. Alpha Gam hosted their own version of MTV's Singled Out, Beta held a sand soccer tournament, and Theta got people wet with their dunk tank. Everyone got involved in having a good time, as the week concluded with a campus-wide Sun-Daze celebration. The day included fun and sun and the Mighty Mighty Bosstones in concert.

Synergy: Lessons in Learning ACADEMICS

We came to college to get a degree in a specialized field. Along the way, however, we learned a lot more than differentiation, international finance, and manufacturing processes. The group projects that kept us up until 3 a.m., the presentations that kept us sleepless for days beforehand, and the conferences with professors also taught us something about ourselves. The cooperation between students and faculty that helped us to earn our degrees is one of the most valuable lessons we could have learned. The faculty and administration play a paramount role in our education. The degrees we receive are examples of synergy at its finest.

A message from your president . . .

Graduation time is such a rich, full experience that there is little opportunity to peruse the pages of The Epitome, and little immediate significance in the farewell words of your president. These words, therefore, are written for another time, twenty or thirty or even fifty years later, when they will be read with older eyes.

Your Lehigh education is a gift from many people . . . from parents, teachers, and friends, and from other benefactors as well, not all known to you by name. No matter how hard you worked to earn your Lehigh degree, it is still a privilege conferred upon you by virtue of the kindness of other people.

From the vantage point to be achieved in the twilight of your career, it will be apparent that the Lehigh experience can be sustained for future generations only if graduates continue the tradition of investing in Lehigh's future as an expression of appreciation of our shared pasts. You will realize then, if not yet now, that your responsibility to future generations can be met in many ways throughout your life . . . not only in gifts of money but in gifts of precious time, and contributions of the heart.

If you note these words in time, and heed them, or if you understand their meaning without need for the words, then you will someday look back on a lifetime of Lehigh experiences with pride and satisfaction. If not, you will someday feel separated from your alma mater, which will be only a memory.

I hope, both for your sake and for the future well-being of Lehigh University, that you will be among those alumni who never lose the feeling of belonging to the Lehigh family.

To laugh often and to love much, to win the respect of intelligent persons and the affection of children; to earn the approbation of honest critics and to endure the betrayal of false friends; to appreciate beauty; to find the best in others; to give one's self; to leave the world a bit better, whether by a healthy child, a garden patch or a redeemed social condition; to have played and laughed with enthusiasm and sung with exultation; to know even one life has breathed easier because you have lived, this is to have succeeded.

GOVERNMENT

Professor Colon represents the department.

Remember the fear and excitement of your first class freshman year? Little were you aware of the dark shadow that lurks about every semester at Lehigh. The inescapable dread of every student at Lehigh. This frightful force of course is the 4 o'clock. These timeless exams believe in nothing but stress. Cramming became the damning of every Lehigh student. There is but one escape from the nightmares of these stress demons, a school year's end (graduation).

Women's Studies

The Women's Studies Program offers a broad curriculum taught by faculty from eleven different departments in the College of Arts and Sciences and the College of Business and Economics. Nearly all academic disciplines have defined human nature and significant achievement in terms of male experience. Women's Studies examines and analyzes the diverse realities of women's lives, as well as the ways gender shapes not only the lives and interactions of women and men, but also the structure and functioning of society.

Chemical Engineering

Chemical engineers play important roles in all industries in which chemicals are developed, analyzed, manufactured, and utilized. These roles include research and development, process and plant design, corporate planning, technical and market sales, and plant construction, improvement, operation and management. To be effective, engineers must have a strong background in the fundamentals as well as a broad education in the humanities, social sciences, managerial techniques, and effective communication skills.

Organized Synergy ACTIVITIES

We better ourselves through experience. By interacting with people in places other than the classroom, we learn more about others, and more about ourselves. Whether the experience is through Alpha Phi Omega, the Marching '97, the Newman Council, or other various activities, the result is synergy. Not only does our participation in clubs provide us with entertainment, but it also enhances our lives through cooperative interaction. Ultimately, the memories that will make us smile the most when looking back on our Lehigh experience will be the ones made with others.

Continuing a long standing tradition of broadcasting Lehigh sports live on WLVR, 91.3 FM, Sports Director Dave Friedman finished his third year in that role with a flourish. Appointed to coordinate sports radio broadcasts for the station in November 1993, Friedman has been part of more than 185 events since he began as a freshman a year earlier.

Friedman and fellow senior Willie Davis anchored coverage of more than 75 broadcasts this year. Highlights include men's basketball contests at Wake Forest and in Seattle's U.S. Cellular West tournament. The station began broadcasting baseball and softball in 1995. This spring's schedule included trips to Annapolis, Md. for baseball and to Salem, Va. for the four-time defending Patriot League champion softball team.

In the past three years, WLVR has offered coverage of baseball, softball, women's basketball and selected wrestling meets. It has included three consecutive softball championships, two football championships, and basketball tournaments. With the help of advisor Mick Moninghoff, Ron Ticho and Jane Gilbert, the dedication of Todd West, Jeremy Colello, Ken Duffy, Walt Norman, and several others, the sports staff looks forward to expanding its offerings.

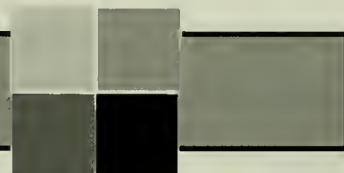

Senior play-by-play man Dave Friedman and senior color commentator Willie Davis have entertained listeners for the past three years.

This year was primarily used to reconstruct Lehigh's Rifle Team. A great deal of time was put into formulating a budget, finding a location to practice, and recruiting new members. The officers worked very hard to coordinate everything, and hopefully next year all the benefits will be realized from their time devoted to the club. Currently, we are practicing at the Hellertown Sportsman Association, which provides both indoor and outdoor shooting facilities. Next year we hope to compete with other schools in the Patriot League.

Students Active in Volunteerism (SAIV) is a student organization that provides students with volunteer opportunities. Since the club began last year, the members have provided Lehigh and the surrounding community with volunteers for activities ranging from a soup kitchen to the Jason Project. Each year at Easter, the members choose an organization to do a fund-raiser for. In December, a "Giving Tree" was sponsored by SAIV where almost 120 gifts were collected and donated to Center City Ministries, Turning Point, and KidsPeace. The 1995-1996 season was the best season ever in Lehigh's short five year existence as an Ice Hockey club team. Under second year head coach Ben Wright and new assistant coach Fred Gilmartin, the Engineers made the league playoffs for the first time despite great setbacks during the season.

During the first half of the season, the Engineers beat several of the top teams in the league including their first win ever against the Naval Academy. Just before the second half of the season began, the Engineer's season took a turn for the worse. The roof at their home ice collapsed while they were getting ready for practice. Luckily, no one was injured but most of the players on the team lost equipment inside the building. Despite having to play all their home games away, the Engineers still managed to make the playoffs. In their first playoff game they faced West Virginia University, ranked fourth in the nation at that time. With three minutes left to play the Engineers were up by a goal, but West Virginia managed to come back and take the victory. Just after the playoffs ended, the Engineers were rewarded acknowledgments when senior defensemen Bob Fryer was elected to the league All-Star Team and sophomore goalie Scott Delach was elected to the second team. The Engineers have had a great season and they continue to improve every year.

ALERT is an acronym for the Lehigh Emergency Response Team. We are a student run organization whose primary responsibility is to provide immediate emergency medical care to the Lehigh University Community. We have a crew, headed by at least one Pennsylvania Emergency Medical Technician, that is available 24 hours a day as long as classes are in session. ALERT also provides training to the Lehigh community in addition to involving observers in the field of Emergency Medical Services.

The Lehigh University Taekwondo Club is comprised of all levels of those who practice the art, from beginners to blackbelts. The club, although no longer able to train on campus, holds their classes at Lehigh Valley Taekwondo on Fourth St. in Bethlehem under the instruction of Master Lee Arnold. It is open to both men and women interested in total body conditioning, physical and mental strength, self defense, full contact sparring techniques and traditional Taekwondo style forms. Members have the opportunity to compete in several tournaments on the east coast throughout the academic year. We encourage all to come join us.

The 'Finest East of All Points West' was back in action again this year. The Marching 97 could be spotted on and off the field displaying their psyche through music, marching, and merriment.

This year, the band was on the road again. We saluted our way to Army, brushed our way through Colgate, and some even masked themselves in Massachusetts. To our utter dismay, two home games were attended by only a few psyched members. Some chose to fulfill their duties amid the cats and dogs pouring from the sky on Freshman parents weekend and others remained homesick during pacing break.

A bold 97 graced the field this year through meticulous drillwork that left audiences speechless. The first drill writing class was also implemented to encourage young drill sculptures studying this unique art.

There was no question of our appearance at the Hellertown Halloween parade. And who could forget this year's Lehigh/Lafayette battle? With the game in overtime, all 97 were not only on the edge of their seats, but the tip of their toes and the base of their instruments. With such spirit in the stands, our victory was inevitable.

Halfway through the season the 97 and Lehigh community warmed up to a new arrival, our new mascot, the Mountain Hawk. His presence and enthusiasm enhanced the spirit and psyche of each performance.

A great amount of teamwork and dedication made this season something wonderful, a success. Our proud organization would like to thank everyone who makes our performances possible!

Ultimate TEAM

Four years ago, about 10 freshmen joined the ultimate team, and over time, the numbers started to drop. By the end of sophomore year, there were only three of us left. We were very devoted to the team and always invested a great deal of our time into it. We saw a major problem with lack of interest in the team and decided to take matters into our own hands for future recruitment. At the beginning of our junior year, we had doubled the membership of the team, bringing it from 10 to 20, and by the middle of our senior year, it doubled yet again with the help of other members. The team currently has 40 members and interest is growing strong.

Our Lehigh Ultimate experience is something that none of us will ever forget. The friendships we made on the team and with other teams are going to be with us forever. We all feel a very strong bond to the team, not only because of what we've done for it, but because of what it's done for us. We are leaving behind one of the best Lehigh Ultimate teams the school has ever seen, and we know the team will be in good hands and do us proud.

We would just like to take this opportunity to thank everyone who helped make our LUFT experience as memorable as it is. Good luck to all current and future members - Please don't disappoint us and let this 21 year old tradition at Lehigh die after everything we've done to keep it going. You haven't seen the last of us yet...

None of what we've done could have been possible without the help of the various team presidents and captains, Greg Schulze, Jane Josephson, Jane Gilbert (thank you VERY much), and most importantly, Gimp. Gimp, you are a god! Please don't ever leave Maginnes lawn.

The Newman Council provides students with the opportunity to become more involved with the Catholic religion. Through volunteer work at Center City Ministries, teaching Sunday School, the adopt-a-grandparent program, tutoring at Holy Infancy School, and volunteering at mass, students can get more involved with the Catholic Community. The Newman Council also sponsors Lenten Fellowship dinners, opportunities for individual prayer, holiday parties, and welcome receptions for freshmen. Each year, the Council sponsors a giving tree where presents are donated to Center City Ministries, Turning Point, and Holy Infancy School.

Lehigh University's Student Chapter of the American Society of Mechanical Engineers helps students in the college of Mechanical Engineering and Mechanics to understand how to apply their education in the industry and discover the various opportunities open to them after graduation. To promote this end, the society sponsors speakers from organizations such as NASA and Chrysler, has monthly meetings, and holds an annual student paper contest. Membership in the ASME is open to any registered engineering student.

The Accounting Club has provided a forum for accounting students at Lehigh. Our goal has been to offer valuable programs to our membership. These programs have taken many forms; from guest speakers and accounting firm site visits to charity fundraisers and volleyball games with alumni. Through these events, we have been able to bring students and executives together in an enjoyable environment. We would like to thank all of the students who helped make this year a success. Also, thanks to Karen Collins for her continued dedication and support.

Synergy in Action

SPORTS

Heywood Brown once said, "Sports do not build character, they reveal it." Here at Lehigh, the character of our athletes is never in question. Regardless of whether a team is competing for the intramural or Patriot League championship, teamwork and character comprise their foundation. Sports provide students with the opportunity to join together in a cooperative effort and achieve more than they ever could individually. The synergy created by a group of devoted individuals committed to one common goal is the true determinant of success. No matter what the odds are, Lehigh teams rise to all challenges, and persevere.

The Lehigh Engineers accomplished all their pre-season goals: Patriot League Champions, unbeaten vs. the Ivy League and ranked in the Lambert Cup. In what many observers felt was the most exciting game ever played, Lehigh defeated Lafayette in double overtime to climax the season.

Led by captains Bob Aylsworth, Roman McDonald, and Brian Klingerman, the Engineers managed to come from behind in four different games to win. Klingerman, Aylsworth and Rabih Abdullah had milestone seasons, while Kevin Higgins was named Patriot League "Coach of the Year."

Fifth year head coach Allison Moxey and graduate assistant Laura Jones had a young team to work with for the 1995-96 season. The team did, however, have a strong nucleus of five seniors that provided leadership and experience to the team. Senior co-captain Dia Johnson led the team with 37 goals and 16 assists and through her career was recognized as a regional All-American, as well as a First Team All Patriot League Player. Senior Forward Michelle Yrigoyen placed second on the team with 10 goals and 14 assists. Seniors Courtney Rossi, Sherri Corr, and Shannon Herchel anchored a solid defense through their four years of playing together at Lehigh. Rossi, a co-captain, was also recognized as a Second Team All Patriot League Player.

The 1995 men's soccer season was deceiving. With the final whistle at Yale, we had only four wins to show for our efforts, yet this was clearly not the end of our team. Along with these wins came eleven losses that were all lost by a one goal margin. While the season was indeed over and the record dismal, the spirit of our cohesive group of twenty-two men was optimistic. We had leadership in our seniors Greg Cameron, Michael Benn, and Ben Chernelich, who spoke only of devotion and enthusiasm for the game. So while the past season ended without celebration, it was a season that moved twenty-two men and a program a step closer.

There was only one senior leading the team this year, so next year, with so many returning stars, we can look forward to having a winning season. This season was a great way to end Sue Snyder's last year. She says, "I wouldn't trade my experience at Lehigh for anything!"

After a pre-season conference coaches' poll projected a last place finish for the women's cross country team, their focus was clear. They were going to prove something to the rest of the conference and most importantly to themselves. An early season 4th place team finish at the Penn State Invitational prove that these engineers were for real. As their fitness increased so did their confidence as the Lehigh women trounced rival Lafayette in a dual meet, sweeping the top four places. Lehigh capped off its fine season with a 4th place finish in the Patriot League Championship meet. The future definitely looks bright for these engineers.

With only two seniors, six returning letter winners, and a few players with some experience, who would expect great accomplishments from our team? Probably no one except ourselves. We saw the talent that few others did as it developed in everyone. We strove for great achievements and got them. Our record does not show it, but our skills developed and improved and we came together and played as a team. Next year we will miss our two senior captains, Siobhan McMahon and Suzanne Montagnino for their leadership, hustle, and friendship. We will continue what they helped us to start and have a great year.

The 1995-1996 Lehigh Engineer Wrestling Team.

Despite a losing dual meet record of 7-9 the Wrestling Team had a successful season in many respects. Ten of the sixteen dual meet opponents were ranked in the nation's top twenty. Under the tutelage of first year coach Greg Strobel eight wrestlers were ranked in the top six at their respective weight class entering the EIWA tournament. The team worked very hard during the season, but more importantly was able to have fun. Next season Lehigh wrestling will continue to be strong, losing only three starters.

The 1996 women's softball team once again celebrated an incredible season. With various successful tournaments: during spring break, at Princeton, the Patriot League Championships, as well as the NCAA, our Lehigh team paved the road of their success. Despite injuries to various members, the team managed to maintain their morale in order to rise above adversity in the end. The graduating seniors need not worry- they leave the fate of the team in good hands.

Matt Potts, co-captain, was given the coach's award and Saleem Saab, co-captain, was named MVP. Though they had a slow start at the Patriot League Championships, the team is looking forward to a bright future.

The Lehigh Men's Lacrosse Team finished the season with a record of 2-3 within the Patriot League, and 5-9 overall. The Engineers would have compelled an even more impressive league record of over .500 and would have had a good chance at the League Championship, had it not been for Army squeaking out a win in the final seconds of a very tough game.

Overall though, the men's team performed well throughout the entire season, and hope for an even more successful season next year.

Where Everybody Knows Your Name LIVING

Leaving the comforts of home and adjusting to a completely new environment is something every Lehigh student must do. While it takes us different amounts of time to adjust, eventually everyone comes to refer to Lehigh as "home." Whether home is found in a residence hall, a fraternity, a sorority, or off campus, the friendships and experiences gained in these settings lead to memories we will cherish forever.

We will always remember the first time we were locked out of our room freshman year, initiation and all our pledge activities, our experiences with the room lottery, or the first time the electricity bill came. We remember these events not only because they make us smile, but because the people we shared these moments with will never let us forget them. While our homes here at Lehigh are never like the ones we leave behind, we come to love them because we share them with each other, and because they are something we can call our own.

This year the men and women of the A side of the third floor of McClintic-Marshall had the chance to experience something that no one else at Lehigh has ever experienced: A freshman co-ed floor. At first this seemed to bring about anticipation, but this all soon subsided. Inside every room were friends like brothers and sisters who were there as a shoulder to cry on or a friend to go to dinner with. When it is

all said and done, the friendships that are made freshman year remain in our hearts forever. The memories will always be with us. McM A3 proved to be an experience of great friendships and great memories. "We knew it wouldn't last forever, but we did not think it would end so soon." (JFK)

LEHIGH Gothic

It was the best of times, and times were so-so. The two college students had reaped the fields of the divine learning to the full. They had drank from the cup of knowledge (and the pitche of enlightenment, and the keg of wisdom.) Cord Frieden and Bear Sebastian, at the conclusion of their college affairs, were sitting around one night in their off-campus abode, philosophizing about life and stuff, when they decided upon a radical course of action.

Lehigh had imposed on them a serious determination for achievement, and they had forgotten how to have a fun time. "Dammit Bear, we hath been suckered by the Man! We must retaliate and prove to the university that we are immature!"

And so, the next morn, they crept into the basement of the University Center, where they had spent many a long night wreaking havoc with the student publication, drinking merrily all the while.

They came upon me. Cooke. Andy Cooke. I was traveling cross-country with my Village People cover band, "Erickson's Boys". (I'm the fireman). I'm really a gonzo journalist, but I'm between jobs right now. There's just no call for blue, big-nosed, annoying writers right now. I saw these guys doing something crazy, and I just had to pitch in my two cents. They agreed to let me tell their story (with a small percentage of the profits, of course.)

And then, in the age of transition between youth and elder, between undergraduate and alumnus, between mature and immature, we three young men set our creative juices to flowing. The result was an amalgam of all of our talents: Cord's masterpiece of art, Bear's unvanquishable sense of humor, and a raspberry from Andy in the face of all those who thought college men on the verge of graduation should start to act responsibly...

It was *Lehigh Gothic*.

The sisters of AOP are all individuals who are bonded together by a special sisterhood. This individuality is expressed through the extracurricular activities we are involved in. A few of them include class offices, sports, and honor societies. We also hold an annual philanthropic fund-raiser called Mr. Lehigh.

The sisters of AOP would also like to say good-bye to our graduating seniors. Remember all the great times we've shared: blind date/crush parties, formals, theme parties, and just hanging-out. You have brought so much to this house. You will all be greatly missed.

Congratulations to all the graduating seniors. Good luck Ron next year with the wife & dog. Have fun in Europe Kinley, Nagy and Martz--but watch out for the running of the bowels. Congratulations Jay on your pinning with Cliff, and Good Luck Grady with Big Al. Sugar Ray Cloud (0-3) you're signed up for the Golden Gloves (hopefully Harkey and Dimig won't). Jim B. put some clothes on next time you start dancing. 'Stadt--where are you going to take the kids? To fire marshal Nagy--a career at Chalfont and a broken down aquarium. Dylan and Greg (the Pink Ladies), Keep trying for that free beer at Leon's.

To the future seniors: Jimmy "Hot Pockets" Glogoza, Uncle Keller, Buzzer-boy Psaki, Iavaliere Avi, Nagy's little brother, Stacky Candella, Tisha Naylor, tough luck Fletcher and Souza "I need two for fuse." Trial of the century--O.J./R.J. Ippoldo vs. the Greatest American Hero and probation for 27 weeks.

What do Kit, McCauley, CoCo and Quirk have in common?

Dyner - stop being such a squirrel
Spikey - make sure to get the tuna out of your radiator and stack yourself. Dimig - get out of Youmar's shadow. Dabbs - you're just awful

Special thanks to: the hospital, potato gun, the key wester, the bomb squad, Fuseball, Beirut, tailgates, brunch, stacking, Karen, Grady and the band, Racheal Neal, Mardi Gras, 428 E. 5th, Linda and Big Al.

Best of Luck Next Year Fellas!

quiet by the power
of joy, we see into
the life of things.

but to get the full value from
joy you must have somebdoy
to divide it with.

Dear Rob,

I don't think you realize just how happy I am to have you in my life. You make me laugh and you bring me love - and for that I am truly lucky.

You are a wonderful person. And I know you will succeed in anything that you do. Thank you for making my life better than I could ever imagine.

I hope we have even happier times in our future.

I Love You, your "Boop"

Mom, Dad and Jay,

Thank you for being the best family in the world. Mom, you've done so much for all of us. I admire and love you. Dad, I'm so proud of you and your triumph. Jay, you've become such a beautiful and successful person and a great role model. Thank you for your unconditional love.

Kat, Deb, Anne and Seema,

You guys have helped me through so much — good and bad. We've had such wonderful, happy, laughing times. You are each such beautiful people. I wish you all the success in the world because you deserve it. I'll miss you tremendously. And don't think this is the last you'll hear from me.

I Love You Guys!

Jamie, Joe, Ahmet, and Tom,

You each know by now how much "I Love You Guys" and how much you each mean to me. You've become so close to me that I can't imagine not hanging out with you (or letting myself in your house with my own key!). Every time I see you guys I realize how glad I am that I got to know you, how I never regret becoming a permanent fixture in your house. Each one of you is so bright and has so much to offer the world — and I'm so proud of you!

Thanks for making me so lucky and loved! Tolerate one more time,

"I Love You Guys! I'll Miss You Guys!"

To everyone else I will miss:

Thanks for the good and bad times. Thanks for making my life more complete.

Good Luck, Good Health, Good Wishes!

I'm outta here!

Love,

Jean

Success

“To laugh often and much; to win the
respect of intelligent people and affection
of children; to earn the appreciation of
honest critics and endure the betrayal of
false friends; to appreciate beauty, to find
the best in others; to leave the world a bit
better, whether by a heathy child, a garden
patch or a redeemed social condition; to
know that even one life has breathed easier
because you have lived.

This is to have succeeded.”

Anna: Thank you! I missed you second semester. Good luck next year! I'm just a phone call away...

Jenny B.: Thank you for your enthusiasm and reliability. I always knew I could count on you to do a great job. I really appreciate all that you have done this year! Good luck next year!

Eric: You did a great job with a section that isn't always very exciting (I know)! And you definitely get the award for the most meetings attended.

Kris: I love what you did to your section! I never would have thought that it could be so interesting to look through and read! Good luck after graduation!!!

Julianne: Wow! I truly appreciate all that you did to meet your deadline. Good luck with your new job!

Liz: I don't know what I would have done without you! Thank you so much for stepping in and saving me a lot of time and effort. I wish your time here with the Epitome could have been longer. Good luck with your job!

Jen C. and Melissa: Great job with such an involved section! I hope you will be returning to the Epitome in the future. Both of you have definitely done a great job!

Jeff: Thank you for all of the writing help, and especially for coming up with the theme!

Travis: Last, but definitely not least! Thank you for stepping in and helping with absolutely everything, from designing pages, to keeping me sane. I love you! I'm glad you will be back with the Epitome... you'll do a great job.
